SPECIALIZED TRANSPORTATION SERVICE: SOLUTIONS FOR THE CALGARY REGION

*We want to share our thoughts and get your
input!*

The Calgary Regional Partnership's Project Steering Committee and their consultant from the *IBI Group* have been studying specialized transportation needs and requirements for residents throughout the Region for the past six months. Back in May of this year there was a series of Focus Group and Public Meetings held throughout the region in order to get input on specialized transportation needs, requirements, issues and challenges. Based on this input combined with the analysis of other relevant data, preliminary plans and possible solutions or strategies have been developed to address the specialized transportation needs of the region. These will be presented at the Discussion Group session. We need to know what you think.

What you have to say is important in helping to plan for the future, please plan on attending on September 19th. If you cannot attend and would like to forward comments, please e-mail Amanda Cromar at Amanda@calgaryregion.ca or telephone her on 403 851 2509.

We look forward to your participation in this very important forum.

Sincerely,

Rick Butler
